THE RX BOOST PROGRAM IS NOT INSURANCE. The Program provides assistance in obtaining savings with prescription providers for the cost of specialty prescriptions wherever possible. The Program does not make payments directly to the providers of prescription services. The Program member is obligated to pay for all prescription services but, if qualified, will receive savings from those prescription providers who have contracted with the prescription plan organization. Upon request, the Program administrator will make available a complete list of pharmacy program providers in the cardholder's service area.
