*Estimated cost per medication is not guaranteed. Costs are dependent upon the specific pharmacy, NDC, quantity, dosage, date, and time filled.

THE RX CAP PROGRAM IS NOT INSURANCE. The Program provides members with network contract rates for the cost of prescriptions. The Program does not make payments directly to the providers of prescription services. The Program member is obligated to pay for all prescription services but will receive network contract rates on prescriptions from those prescription providers who have contracted with the prescription plan organization. Upon request, the Program administrator will make available a complete list of pharmacy program providers in the cardholder's service area.
