Select Network- This smaller network of health care providers and hospitals ensures members have access to providers that have a history of better healthcare outcomes.

Select Network plan options are only offered in certain states and counties. Call your Ambetter Health Account Executive for details.

Value Network- Starting 1/1/2024, members will be assigned to a Medical Group as well as a primary care provider (PCP) within that Medical Group. However, members can see any PCP within their assigned medical group without a referral. These PCPs can be located in the Ambetter Guide. PCPs coordinate a member's care by providing medically necessary referrals to Ambetter Health's network of healthcare providers and hospital.
