UNA Akos Direct Overview

Akos Direct is complete virtual concierge primary and urgent care with free monthly prescriptions, free, same-day delivery to your doorstep. This program features care navigation to coordinate with your health plan or provide you with the best possible resources if you don't have one. Instead of going to the hospital, urgent care, pharmacy, or a doctor's office, you now have the ability to carry all of them in your pocket. The Akos National Lab Program allows access to diagnostic and imaging at drastically reduced pricing that can't be found elsewhere and that many major medical health plans lack. Decrease your expenses and increase the quality and efficiency of your care with Akos Direct.

UNA Membership

Akos Direct includes membership in the United National Association (UNA).

Membership Highlights

- Three levels of membership based on your family structure
- Care navigation and complete virtual concierge care with no copays or additional costs
- Formulary of free monthly prescriptions with free, same-day delivery
- Cash to help with unexpected costs due to accidental Injury
- Helps eliminate copays or raise deductibles to lower your total healthcare spend

Members can use their benefits whenever and wherever they want. Often times, with Akos Direct, a member can lower the cost of their primary health plan enough for the program to pay for itself and still provide savings.

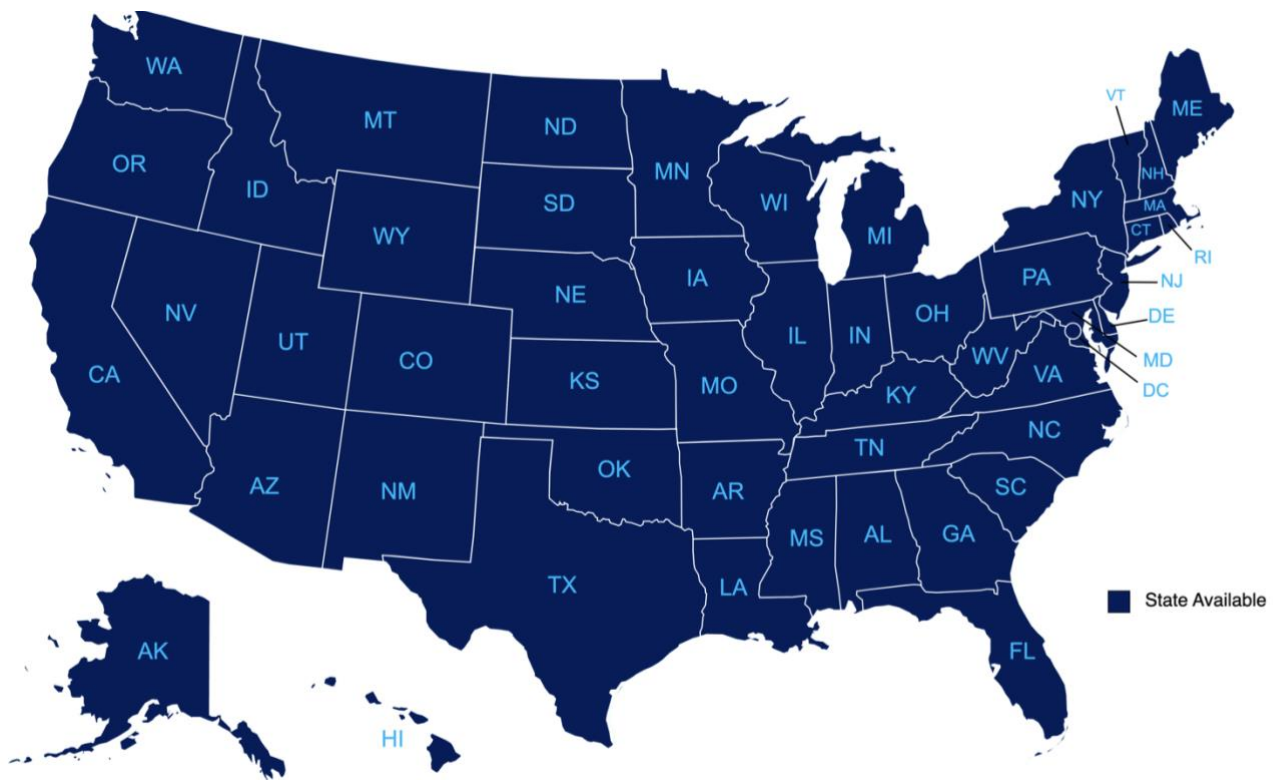

Eligibility Requirements

UNA Akos Direct Eligibility Requirements

In order to qualify for Akos Direct, you must:

- Be above the age of eighteen (18)
- Reside in an available state
- Dependent children must be under age twenty-six (26)

Akos Direct is Available in All 50 States, DC and All U.S. Territories.

4

Real time secure consultation without long wait times

*Same day delivery for most meds in most areas but not all

AkosMD Laboratory Program

Overview

AkosMD partners with local laboratories across the country to offer low upfront rates for diagnostic lab tests, imaging, and GI procedures such as colonoscopies and endoscopies. Our rates are truly all-inclusive rates with no surprises at the center. Our rates include all costs related to the lab test and there are no hidden charges.

Advantages of the AkosMD Laboratory Program

- 1 Access to discounted pricing well below what you can get as a self-pay patient.
- 2 Know the cost of your services upfront before you go in.
- 3 Protection from rate changes and unexpected bills.
- 4 Ability to get lab work within 2 hours from the time a request is made.

Sample Rates

\$8	CBC Complete Blood Count
\$10	CMP Comp Metabolic Panel
\$10	Renal Function Renal Function Panel
\$10	Lipid Panel w or w/o reflex
\$10	Blood Draw Per Visit

*The rates include:
Laboratory fees | Pathologist fees | Reports*

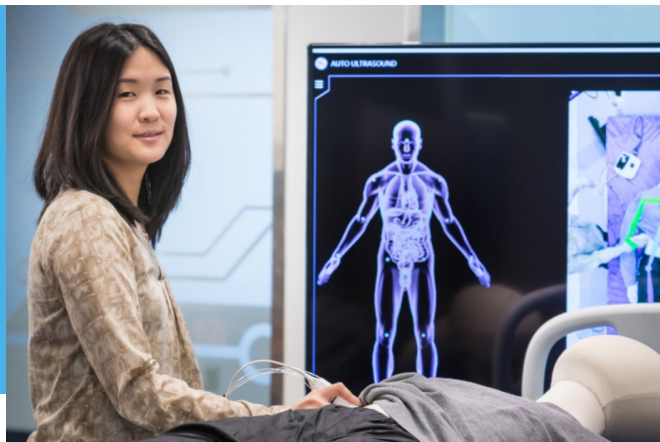

AkosMD Imaging Program

The AkosMD Imaging Program is a nationwide program that ensures that the individuals receive: An affordable cost, quality care, quick and easy scheduling, protection from common up charges and pitfalls that patients face.

The program partners with imaging centers in 44 states to offer this service and hopes to be your advocate in obtaining affordable healthcare.

Advantages of the AkosMD Imaging Program

- 1 Priority scheduling Our schedulers can get you in for appointments sooner than you can schedule yourself.
- 2 Upcharges Centers are prohibited from up-charging patients at time of service when you are most vulnerable.
- 3 Unbundling Centers are not allowed to unbundle codes. For example, they can't charge for a CT with contrast and then charge a separate fee for administering the injection (it should be included in the CT cost).
- 4 Protection from Frivolous Charges We vehemently protect you from frivolous charges and bad billing practices. For example: 3D rendering charges for scans which are always 3D, charges for a copy of your images.
- 5 Medical Necessity Reviews Our trained specialists protocol each referral internally before scheduling. For example, some centres insist lab work before a CT for all patients because its convenient. They can not do this for our patients unless the lab work is medically necessary.
- 6 Referral back-and-forth Our trained schedulers are able to resolve most common problems with referrals without needing the patient to spend time going back and forth with their referring doctor.

Sample Rates

\$275	MRI w/o contrast	\$869
\$140	CT Scan w/o contrast	\$532
\$150	Mammogram Screening or diagnostic	\$286
\$135	Ultrasound Most Body Part	\$331
\$38	X Ray 2 views	\$72

*Comparison rates were derived from 2022 fee schedules published by national carriers and should be used for illustrative purposes only. Rates will vary by geographic location as well as facility chosen.

AkosMD Behavioral Health Services

A better mind for better health

AkosMD administers a virtual based behavioral health program that helps navigate members to counseling and psychological services.

The patients dedicated AkosMD Care Navigator helps navigate the patient to the appropriate services and schedules the initial appointment and any follow-up appointments the patient may need.

The Care Navigator also ensures the patient has a good understanding of the treatment plan and is compliant.

Conditions Treated Via Video Consult

- Depression
- Stress
- Anxiety
- Eating Disorders
- Grief
- Family/relationship issues

Whats Included

Initial consult and evaluation by an Akos Psychiatrist

Up to 3 therapy visits included in subscription

- additional psychiatry visits are \$175 per visit
- additional therapy visits are \$115 per visit

Video Consults

Appointments with licensed counselors are available between 7am - 10pm 7 days a week. Patients may request the same counselor for subsequent visits.

Crisis calls outside the scheduled hours are handled by trained behavioral health registered nurses.

Routine Virtual Psychiatry Consults - The attending physician/other medical professional may refer patients for psychiatric evaluation. The Care Navigator will arrange for a video consultation between the psychiatrist and patient within a pre-determined timeframe. The consulting psychiatrist provides a written evaluation with conclusions and recommendations. Only non-controlled substances can be prescribed via telepsychiatry. Patients requiring controlled substances are referred out for an in-person visit.
