Covid 19 Update

During these uncertain times, our goals are consistent with other essential businesses. Our first priority is to maintain the health and safety of our staff and their families, as well as our clients. Our next priority is to continue to serve the needs of our clients with the high level of excellence that is our hallmark. To that end, our office is open, while all team members are working in a secure environment from their homes. The only difference you will find is that we are not accommodating in-office appointments at this time. Please feel free to reach us by phone, or email, and we will be happy to schedule phone appointments or utilize technology to your personal comfort level with video-screen or join our virtual meetings.
